

URGENT: RECALL NOTICE

PreveNile®

West Nile Virus Vaccine

April 28, 2010

Dear Doctor:

This is to inform you that Intervet Inc. is conducting a voluntary recall of all serials, and all dose presentations of PreveNile® West Nile Virus Vaccine. This recall is being conducted because Intervet has identified an increased incidence of adverse events related to currently marketed serials. We have notified the United States Department of Agriculture, Center for Veterinary Biologics, of this recall action.

The recall is for all serials of product. The serial numbers are:

PreveNile One-dose:

91669001 91669015
91669002 91669016
91669005 91660001
91669006 91660002
91669007
91669012
91669013
91669014

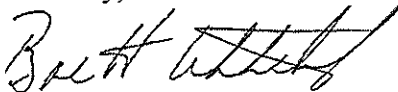

PreveNile Five-dose:

91669003
91669004
91669008
91669009
91669010
91669011
91660003
91660004

Please check your inventory immediately to identify whether or not you have any PreveNile vaccine. If you have any PreveNile product, please contact your distributor representative to arrange the return and credit for any returned product.

Intervet, as a responsible manufacturer of quality veterinary products, is committed to supplying you with quality products and sincerely regrets any inconvenience that this recall may cause. The health and well-being of horses, as well as the trust and support of the Equine community, is something we take very seriously. For more information, please call our Technical Service Department at 866-349-3497.

Sincerely,

Brett Whitehead
Director, Equine and Ag Retail Business
